## We sincerely hope this newsletter finds you well!

Spring is usually a busy time but this pandemic has made this year exceptionally difficult for us to try to conduct business. We are now open to the public and happy that everyone is now welcome to select their plants and enjoy some time in the garden. We are following the COVID-19 guidelines from the province of Ontario to make your shopping experience safe for you and our team.

On a brighter note, we have opened an E-Commerce website which includes our most popular products so you can shop at your convenience at home and your order will be ready for curbside pickup in 24 to 48 hours.

**SHOP WITH US ONLINE!!!**

Now, back to some garden talk about weigelas - which are just starting to bloom!

This versatile garden staple is coming back into the spotlight. Weigelas are available in green, burgundy or variegated foliage, upright or cascading shapes and pink, red or white flowers. It is a hardy, low maintenance shrub which will grow 2', 3', 4' or taller. They are especially loved by Hummingbirds but popular with butterflies and other pollinators too. Weigela is a member of the Honeysuckle family and is named after the German scientist Christian Ehrenfried Weigel. Weigelas do not have any significant negative characteristics.

At Maidstone Tree Farm and Garden Centre we carry this selection and more. Click on the links below to see which one is best suited for your planting location.

### Sonic Bloom Red® Reblooming Weigela

## How to Prune Weigela

Weigela is an excellent spring-blooming shrub that can add flair and colour to your spring garden. Pruning weigelas helps keep them looking healthy and beautiful. But it can be a little confusing when trying to figure out how and when to trim weigela shrubs. To learn how to prune weigela shrubs, click [here](#).
